

SMALL SURFACES DESERVE EXCEPTIONAL ICE

A tractor-pulled unit for ice surfaces up to 5,000 square feet. Provides a complete resurfacing by shaving the ice, conveying the snow and leaving ice making water behind in one operation.

**MODEL
100**

Paddle and chain conveyor can collect and store up to 10 cubic feet of snow in tank

Shaves the ice and leaves fresh ice-making water behind for a true resurfacing of the ice

Wide 48 inch cutting path from the blade with down pressure for a superior ice surface

PERFORMANCE

Designed for small surfaces to deliver the results normally afforded only by way of a full sized ice resurfacer. The 96 inch (2.44 m) turn radius handles tight corners.

OPERATION

Self-contained processes and easy access to controls provide a remarkably simple resurfacing.

CAPACITIES

The snow tank can collect up to ten cubic feet of shavings. Ice making water tank houses 20 USG (75.7 L) and its 48 inch blade cuts a generous path.

CONSTRUCTION

All-welded steel body is built by hand. High quality paint and corrosion-free poly ice-making water tank for long life.

GLOBAL SERVICE AND SUPPORT

Zamboni Customer Service and a network of Zamboni Authorized Distributors provide exceptional and accessible service and support worldwide.

MODEL 100
